WE'VE CORNERED THE MARKET!

CrownCove™: Your Competitive Edge.

Experienced specifiers, contractors and installers know that an otherwise perfect job can be ruined by poorly executed, inconsistent cove detailing.

CrownCove, a vastly improved molding system, is the breakthrough that will allow projects to be completed faster, more efficiently and at a lower cost. As a result, every job can be more consistent and more profitable, from beginning to end.

Crown Polymers continues to lead the industry with imaginative thinking and innovative new products that offer real value and profits in an environmentally sensitive world and an increasingly competitive marketplace.

Be sure to visit the Crown Polymer booth at the World of Concrete trade show in Las Vegas where Crown will introduce several ingenious new products that are certain to create a new industry standard for beauty, fashion and style!

Crown Polymers provides prompt and professional customer service performed by the industry's most qualified technical support team, a team you can use to make running your business easier and more profitable.

Be sure to see our exciting new products in Las Vegas. Learn how we are setting the new industry standard!

We're Setting New Industry Standards!
Come see what we're up to at the World of Concrete!
