CrownShield® SL-Self Leveling

# INDUSTRIAL STRENGTH

## Muscle To Get The Job Done.

Crown Polymers "green" industrial strength polymer floor and wall systems contribute to sustainability and environmental responsibility.

Problems caused by uneven or damaged concrete are easily resolved by the self leveling application of CrownShield™ SL. Other special purpose Crown products are designed for hostile environments where harsh chemicals are used, where danger of static electricity is present or where extreme temperatures exist.

"Green" decorative and industrial products are nothing new at Crown Polymers. The company has been making zero VOC/HAP overlay products since long before the benefits became widely known.

Crown is unique among competitors because of its ability to promptly apply its technical knowledge and creative muscle to provide solutions for industrial, civil engineering, decorative, commercial, institutional and residential polymer floor and wall systems.

In addition to innovative products, Crown Polymers provides prompt and professional customer service, specifications & support from the industry's most qualified technical team, a team dedicated to being the best in the business.

**CrownCove™: Fast Around Corners And Straightaways!**  
Complete projects faster, more efficiently and at a lower cost!
