Jerry Ansley, President
American Garage, LLC.
Asheville, North Carolina

"At American Garage, we rely on Crown Polymers to provide an array of unique products, not readily available from other manufacturers. Crown's no-nonsense approach has created a working relationship, that has allowed us to grow into a market leader. In addition, Crown assists us with innovative new products that give us a distinct advantage over our competitors. The professionals at Crown know how to navigate through tough economic conditions. They understand the dynamics and value of a healthy supplier-client relationship."

IMPROVE YOUR VISION

CROWN PRODUCTS ARE THE CLEAR CHOICE

See Opportunities... When Others May Not.

In today's marketplace, it's increasingly important to remain competitive and profitable. Crown Polymers offers smart, long-lasting solutions that will keep your customers happy for years to come.

CrownCrete™ is a modified novolac polymer concrete floor overlay, ideal for wet conditions such as those found in food, meat & poultry processing plants, beverage bottling facilities, industrial & pharmaceutical manufacturing environments. CrownCrete™ provides a safe & easy-to-clean environment.

CrownPro™ SparkShield, improved with CrownLiquid Copper™ Primer, introduces the newest generation of static dissipating floor overlays.

CrownStone™ is a popular decorative polymer stone overlay ideal for entryways, lobby's or poolside areas where slip-resistance is desirable.

Crown's line of LEED® 'Green' polymer & modified concrete floor overlays & wall systems, are free of VOC's and support sustainability strategies. In addition, Crown products are virtually maintenance free while complying with ADA slip-resistant standards.

Crown Polymers provides prompt and professional customer service and technical support from the industry's most qualified team of experts.

Learn how to sell and apply Crown products at the highly regarded 'Polymer Overlay College.™' Call today for more information about how to enroll.
