## CrownGlow™ See the Light...At Night!

**Date:** January 2008

**Publications:** *CoatingsPro, Concrete Decor, Concrete Surfaces, Journal of Architectural Coatings, Journal of Protective Coatings & Linings, Jobsite*

This amazing new product from Crown Polymers has unlimited possibilities. Its use for safety markings are an obvious starting point. Other imaginative uses for CrownGlow™ exist in showrooms, restaurants, nightclubs and residential applications.

CrownGlow™ is a proprietary top coat containing an exclusive phosphor formulation that is energized by ultraviolet light and radiates a familiar soft green glow.
