

Crown Polymers Press Releases 2008

All Our Colors Are Green™ Another Crown Polymers Competitive Advantage...

Date: September 2008

Publications: *CoatingsPro, Concrete Decor, Concrete Surfaces, Journal of Architectural Coatings, Journal of Protective Coatings & Linings, Jobsite*

Crown Polymers decorative and industrial floor & wall polymer overlays assist architects and contractors in several categories within the LEED® Green building rating system. Crown's products can help conserve resources, improve indoor environmental quality, with zero VOCs & HAPs, and help reduce long-term maintenance costs.

In addition, light color solids or blends of Crown Polymer floor & wall systems can improve energy efficiency, contributing to overall energy savings in some buildings by as much as 5 to 20%.
