

# Crown Polymers Press Releases 2009

---

## **CrownAccent™** **The “Stained Look” Surface That Lasts!**

**Date:** January 2009

**Publications:** Jobsite Concrete Surface Prep/Repair & Coatings

Create a stylish fashion-forward appearance that is durable, attractive, economical and easy to clean. CrownAccent™ is a translucent polymer, available in many colors that stains the cement or concrete and highlights the exposed aggregate. CrownAccent™ is perfect for heavy-traffic commercial, institutional and residential environments because it penetrates and becomes a monolithic part of the concrete. CrownAccent™ is ADA & LEED® Green Compliant.
