

Crown Polymers Press Releases 2009

CrownPro™ & Crown Clear™ Beauty, Durability and Unparalleled Protection!

Date: February 2009

Publications: Jobsite Concrete Surface Prep/Repair & Coatings

CrownPro™ & Crown Clear™ are two-component, nearly odorless polyurea & epoxy topcoats that add high gloss and excellent impact resistance to any industrial, commercial, residential, or institutional application, where protection from high foot & vehicle traffic is desirable.

When combined with CrownQuartz™, CrownStone™ or any of Crown Polymers expansive line of floor-to-wall polymer overlay systems, they create a surface that is as durable as it is beautiful. CrownPro™ is UV resistant and both are LEED® Green Compliant.
