

Crown Polymers Press Releases 2009

CrownGlow™ **Crown Polymers Will Keep You Out Of The Dark!**

Date: February 2009

Publications: Jobsite Concrete Surface Prep/Repair & Coatings

The possibilities are endless with this amazing new product from Crown Polymers. An obvious starting point is its use for safety markings. Imaginative uses for CrownGlow™ exist in showrooms, restaurants, nightclubs and residential applications.

Energized by ultraviolet light, CrownGlow™ is a proprietary clear topcoat that contains an exclusive phosphor formulation that radiates a familiar soft green glow. CrownGlow™ enhances safety and is another in Crown's extensive line of "Green" polymer floor and wall products. LEED® Green Compliant.
